Lammhults Library Design develops and market furnishing and equipment of good design for libraries and other environments in the information and education sectors.

Lammhults Biblioteksdesign AB (Lammhults Library Design) will, by actively working with quality and environment, create increased profitability and customer satisfaction. This commitment will encompass all employees and focus on preemptive measures and constant improvement.

THIS MEANS:

- Creating interior design solutions and products of good design and functionality which meet our customers' needs regarding both perceived quality and environmental consideration.
- Working towards high availability of offered products and services with short lead times and reliable deliveries.
- Developing procedures, products and services in such a manner that they are constantly improved.
- Each individual employee being aware of his or her own importance for the organization to fulfill requirements regarding quality and environment.
- Ensuring the availability of necessary resources for education and exchange of experience between employees.
- Engaging in constant dialogue with authorities and customers to study legislation, requirements and needs, and ensuring that these are fulfilled.
- Requiring our suppliers and other partners to meet the requirements on quality and environment according to our own ambitions and the needs of our customers.
- Actively working to set environmental goals which are able to both improve the environment from a life cycle perspective and yield improved profitability.
- Follow Lammhults Design Group AB Environmental policy and code of kondukt: www.lammhultsbiblioteksdesign.se/om-foretaget/hallbarhet
- Constantly work towards reducing our environmental impact.
