Sketchalot

Sketchalot is the world's first and only modular whiteboard panel that requires no permanent attachment to walls or glass surfaces.

Materials and sustainability:

Abstracta whiteboards consists of E3 surface - an environmental-friendly, glass enamelled, sheet of steel.

The writing surface is magnetic, this increases the use for the product. Detachable feet is made from white lacquered aluminium.

There is no emission to air, water or soil during its production.

The Sketchalot filling contains recycled materials.

Measurements WxHxD (mm)

790x2000x210

Tips from Abstracta!

The boards may be positioned as desired – spread around the office, in small groups, or all together in a row.
