Everything your library needs!

WELCOME

TO OUR NEW CATALOGUE

Eurobib
direct

We are pleased to unveil a diverse array of innovative products designed to rejuvenate and invigorate your library space.

In addition to showcasing our Eurobib Direct catalogue and webshop offerings, we are excited to introduce our specialized expertise in library layouts and interior design through our renowned trademarks, BCI and Schulz Speyer. Read more under 'About Us' on our website.

We offer interior design solutions that breathe new life into your environment while promoting sustainability and enhancing mental well-being. Our commitment to sustainability is ingrained in every aspect of our work, from sourcing eco-friendly materials to designing products that will last.

Furthermore, we understand the importance of nurturing mental health in public spaces. Through the principles of biophilic design and other interior design techniques, we create environments that foster a sense of calm, connection, and rejuvenation. Our Eurobib product portfolio also reflects these focus areas.

Join us on our journey by reaching out to us today, and explore our websites where you can stay updated on our product, latest projects, trends, and expert tips.

Together, let's embark on a journey to transform your library into a vibrant, sustainable, and mentally uplifting space.

Stay informed about our environmental certifications by visiting our website regularly to access the most recent information.

KEEP AN EYE ON THESE SYMBOLS IN THE CATALOGUE

We are committed to increasing the share of sustainable raw wooden material in our products and thereby support responsible forestry – for a better world.

We have invested in a Chain-of-Custody Multi-site certificate (FSC™ C144988), which documents, that we can offer wood from well-managed forests and other responsible sources.

The FSC symbol is shown on the products, that are made from FSC-certified and other responsible material.

EU-Ecolabel considers the entire journey of the furniture and the overall impact from production to consumption and the environmental issues that arise along the way.

The Plus Design symbol shows that the product is made of laminated birch plywood with visible edges to create both a durable surface and a lasting construction. Perfect for the most demanding library environments!

Möbelfakta sets the standard for responsible production based upon material selection, production processes and end-of-life cycles.

Most of our furniture can be delivered in other colours. Do you have a special wish? Contact us for more options.

PRICES AND TERMS

For prices and sales and delivery terms please contact your local dealer or our export team at our head office. The catalogue is valid from 01.09.2024.

SUBJECT TO CHANGE DISCLAIMER

We reserve the right to change the conditions in the catalogue with regard to product availability, design, specifications and price. Errors and omissions excepted.

WARRANTY

We provide a 2-year product warranty for defects in materials and manufacturing errors.

Remember that the castors on your trolley may need tightening after a certain period of use (approx. 6 months). We also recommend that you check the castor fittings once a year and tighten as necessary. Keep the tightening tool that is supplied with your book trolley handy. Spare castors are available in our webshop.

THE FIRST ENCOUNTER...

The first encounter (or the first impression for that matter) can be crucial. Whether we're talking about a fully-staffed, reduce-staffed, or unstaffed library, your visitors should not only feel welcome but also be able to get their bearings quickly.

Where can they get personal assistance or how can they help themselves? Questions that your visitors should be able to have answered when they step into the entrance zone.

Planning and designing entrance zones with the help of various interior design solutions may be the answer. Here, we present some options for taking good care of your visitors – right from the first encounter.

"Our adjustable Info Pod with recessed front is a great help to visitors as well as staff. It facilitates the work of the staff and their interaction with all of their visitors.

The counter makes it possible for visitors to get closer with bulky bags, and is also a help for visitors who use a wheelchair or rollator.

Having this type of counter in your library helps increase accessibility for all users."

Let library users take responsibility and help themselves

Nowadays, most libraries have self-service stations for different purposes, without you having to provide assistance. These stations are usually located near entrances and exits to make it easier for both visitors and staff (in case assistance is needed).

Do you need help to get inspired?
We'll be happy to give you some advice!

WILDLIFE COLLECTION

We have had great fun creating a collection of children's furniture especially designed for libraries and other learning environments. Children's furniture where playful designs, clever functions, solid construction and good choices of materials are brought together with care and concern for both the users (children and adults) and the environment. Furniture for children on children's terms!

READING HUT

Reading Hut gives children the opportunity to disappear into another world, to pretend to be somewhere else, to browse through books or just chill.

Reading Hut

Reading room for young library users

A multifunctional room in the shape of an African hut. The horizontal elements tie the structure together and provide ample space for picture books on three levels.

A space that offers privacy, free view (or insight) with integrated shelves to display or dispose books and much more. Everything accessible from both sides of the shelves.

In addition there are 3 compartments for display or storing. Equipped with floor protectors.

Size	H1532 x Ø2340 mm
Material	UV-lacquered birch plywood
Design	Bjarne Hjertvik for Eurobib Direct
Delivery	Flat-packed; assembly required

Wide range of book browsers

Don't miss our wide range of picture book browsers for the children's section. We have a whole chapter devoted to them; see page 31-40.

Learning environments for young users

See our range of furniture that helps you create new spaces for the creative expression of the library's youngest visitors.; see page 48.

AWARD WINNING FURNITURE ICON

Puzzle

Award winning furniture icon for children

Puzzle is just as much a range of furniture as a play tool designed for children and on their terms. The shape is just as simple as it is genius, where both the element and the construction form a table and stools.

Children come and go, look and search around, play individually or in a group or gather together to hear a story read aloud. Activities that demand as well as create space for them.

Size	Table: W900 x D900 x H460 mm Stool: Ø350 x H228 mm
Material	Veneered birch plywood
Design	Birgitte Borup and Carsten Becker for Eurobib Direct
Unit	1 table / 4 stools
Delivery	Flat-packed; assembly required

E15139 1 table + 4 stools

Accessories for Puzzle

E151391 2 stools

AWARD WINNING FURNITURE ICON

Puzzle has been part of a number of exhibitions internationally and has also won the prestigious Japanese G-mark Prize in the category Good Design Grand Prize and the Norwegian Design Prize Designers Saturday.

Puzzle and its puzzle-like qualities connected to the child's motoric development through play wins attention and has, among others, been purchased by Lego.

LEARNING ENVIRONMENTS FOR YOUNG USERS

Simply put, it is a space for practical, creative expression with focus on curiosity.
Cubik is a versatile system for creating spaces designed with straight frames and wall elements.

Cubik Children's House

Focus on curiosity

Get started with Cubik. Consists of a framework and wall elements made of plywood and of black laminate with writing/magnet function.

Size	W1400 x D1400 x H1400 mm
Material	UV-lacquered birch plywood, laminate boards with writing/magnet function
Design	Bjarne Hjertvik for Eurobib Direct

E5132	Grey
E5133	Blue

Cork

Cork is a unique raw material. The cork oak tree grows in the Mediterranean region and contributes significantly to the biodiversity of the area. It absorbs more CO2 than it emits during its 200-year lifespan.

Cork is the bark of the cork oak tree, which is peeled off every 9 years. It is 100% natural and a renewable resource with unique properties.

Cork does not absorb dirt and is resistant to bacteria and dust, making it allergy and asthma-friendly.

Step Melange

Available in 54 fantastic and well-balanced nuances with delicate melange effects. Made of strong polyester Trevira CS fabric.

HABICAVE

Acoustic cave designed and produced in Denmark. A simple but well-thought-out product for the modern library interior.

HabiCave

Privacy and relaxation

HabiCave is a sensory modulating cave for both young and old. Here you will find privacy and relaxation.

HabiCave is a Danish design sculptured with inspiration from the Japanese origami. The simple aesthetic appeals to the senses and the acoustic material not only helps to reduce the noise level inside the cave but also in the room.

The cave is produced with a focus on circularity and long-lasting durability. The felt is made from upcycled PET bottles and the seat is black artificial leather with high durability, both materials which are very easy to clean.

LINGO-GO

Lingo-Go is a straightforward shelving system derived from our extensive Lingo range, available for quick and easy ordering through our webshop. The Lingo-Go shelving combines exceptional design with high functionality and quality, making it perfect for all types of libraries.

NEW!

Lingo-Go

Choose from three standard heights featuring adjustable shelves with back edge for maximum flexibility. The top, bottom and middle shelves must be fixed but the other shelves can be repositioned easily.

Easy to assemble and you can enhance it with our extensive range of accessories. Everything you need to suit your visitors.

The shelf sections are assembled using the metal cross on the back allowing add-on sections to be added or removed without the need to dismantle the entire shelving unit.

Discover how simple it can be to create the perfect library setup with Lingo-Go.

60/30 CLASSIC

The 60/30 Classic shelving system is a standalone shelving system and is the culmination of years of experience and success. Its modular structure and width of bays ensures ideal room utilisation through relevant functions.

The flexibility of the system paves the way for a rich variety of individual solutions.

60/30 Classic

60/30 Classic shelving is available as single-sided, double-sided, round and wall-mounted options; with end panels in different materials; shelves for various purposes; and a wide range of smart accessories which create unprecedented possibilities.

60/30 Classic Shelving is FSC certified for all wooden products.

60/30 Classic Shelving is EU Ecolabel – DK/049/043 certified for all steel products.

UNIFLEX

The Uniflex shelving system offers a wide range of possibilities in your library!
The standalone shelving system with square frame design and numerous shelves and functions allow for individual library design and is especially suited for use in high volume libraries as well as in public and school libraries.

Uniflex

The Uniflex shelving is available in two variations – single- and double-sided, both with the option of increasing the height of the bays (from standard 2250 mm up to 3675 mm in total). Shelves are available in both steel and wood and several functions can be added to create the right functionality for your library.

INFORM ROUND

The Inform Round shelving system offers dynamic change for your library or school environment while adding valuable display or book storage options and also helps to define creative or collaborative areas.

Inform Round

This simple and timeless system fits perfect with our Ratio line of shelving, as well as the Inform counter, table and search station. Together, they encapsulate the true meaning of flexibility. The modular construction provides the highest degree of functionality and versatility, while the various laminate and veneer options are highlighted by the acrylic accent panels.

The double-sided Inform Round shelving system is available in three heights with adjustable feet and in two heights with castors.

E3840 Dark grey

E1504

E1502

Silent Socks

Acoustic socks

With these socks you can reduce the noise in a room and avoid scraping sounds and floor scratches - it also dampen the sound of "collisions" between for instance chair and table. Can withstand machine wash on wool cycle and tumble drying.

Size	S: Ø16 - 22 mm L: Ø20 - 27 mm
Material	Smooth floor: Wool Rough floor: Wool/rubber

Smooth floors

E1501 S, light grey
E1502 L, light grey

Rough floors

E1503 S, dark grey
E1504 L, dark grey

E3840

Acoustic

The current library trend with big open spaces, straight parallel walls and glass surfaces creates unpleasant sound reflections. In these cases, it is important to "help" these surfaces in the best way possible to create a pleasant acoustic environment, by reducing disruption in areas where concentration and quiet contemplation are needed, in which the customers can stay both creative and focused.

Plastic properties & environmental impact

LDPE, Bio-based

Bio-polyethylene is vegetable based polyethylene made of ethanol, which becomes ethylene after a dehydration process. It can be manufactured from various raw materials e.g. sugar cane.

Environmental impact

One of the most important environmental benefits of bio-polyethylene is made of renewable resources with no fossil origin used, and it "binds" approx. 2.15 tons of carbon dioxide per ton of green polyethylene produced. The carbon dioxide is absorbed by the sugar cane as it grows, minus carbon dioxide emitted by the production process. Plastic made from biomass is climate-friendly (CO₂-neutral).

Polyvinyl Chloride, PVC

Colourless vinyl chloride polymer. The rigid plastic is usually mixed with free additives such as softeners, fillers and lubricants, as well as stabilizers.

In general, the plastic has good resistance to chemicals and heat

Environmental impact

Not classified as a hazardous to health and believed to be physiological inert.

¥€\$!

BOOK FILM IS A GREAT WAY TO SAVE MONEY

It is the easiest solution for preserving and extending the life of popular books. You not only prevent wear to books and save money, but you also make it possible to use the library's funding to buy new titles instead of replacing old ones.

We have practically everything you need to protect and preserve books. Book film that can be used by pre-school teachers to repair picture books, and by larger organisations to deliver fully-prepared books to the library. Keep in mind that even

fully-prepared books may need some care, for example to reinforce and repair folds in the cover, repair tears, or reattach pages that have been ripped out (just to name a few). Help is close at hand. We can give you advice that will help you save money!
